THE WEALTHY SOUTH

Its Resources Not Equalled by Any Other District in the World.

IMPROVING RAPIDLY

Cotton Mills Increasing, Iron Industry Multiplying, Oil Fields Being Developed and Opportunities for Various Projects.

Baltimore, Oct. 27.—No better winding up of the Washington meeting of the New England Cotton Manufacturers' association could have been devised than the trip of the manufacturers to some of the important centers of southern industry. Five years ago the association gathered at Atlanta for its first meeting outside of New England. The travelers through the south during the past week had an opportunity to observe many evidences of the wonderful progress made by that section since their last visit. In their own particular field they could note an increase in the interval of the number of mills from 352, with 2,400,000 spindles and 55,000 looms, using 862 bales of cotton, to 663 mills with 4,800,000 active spindles and 122,000 looms, using more than 1,500,000 bales of cotton, while 1,500,000 additional spindles are being installed in new mills, the most notable increase in mill building and mill enlargement having taken place in the past 18 months.

Of special interest perhaps to them were the facts of the strong tendency on the part of the mills to advance to finer grades of goods, and to do more in the way of bleaching and dyeing, of many millions of money that have been invested by New England textile concerns in extending their operations to the south, notably the Dwight company at Alabama City, Ala., the Massachusetts mills at Lindale, Ga., the New York mills at Aragon, Ga., and the Merrimac Manufacturing company at Huntsville, Ala., and of the evidences that southern states, especially North Carolina, South Carolina, Georgia and Mississippi have become fully alive to the necessity for careful training of the rising generation in the technique of advanced cotton manufacturing.

Five years have also done much for iron and coal in the south, the largest development having been made in the Virginias, Tennessee and Alabama, and the most significant fact, perhaps, in this connection was the demonstration of the ability of Alabama pig to undersell English iron in the English markets. This meant more than the mere selling of pig iron abroad by the south. It pointed directly to the erection at Ensley of a steel plant with a capacity of 1000 tons a day, and the establishment near by of a large wire rod and wire mill, hinting at the time when the south is to be busy with many lines of diversified industry dependent upon the handling of iron and steel.

More and more the world has been turning to the vast lumber resources of the south and spurs of great railroad systems or new lines have extended into the forest as feeders for saw mills and mills of greater capacity have been erected. To Florida and South Carolina as producers of phosphates Tennessee has been added, and the Mount Pleasant district in that state is now turning out about 400,000 tons of rock per annum.

In connection with these products the New England visitors might profitably study the development of the marbles of Tennessee, Georgia and Texas, the lead and zinc of Missouri and Arkansas, the fluor-spar of Kentucky, the rock salt of Louisiana, the building stones of the Carolinas and other states, the petroleum of Texas and West Virginia, the shipyards of Maryland and Virginia, the car works of Alabama, the woodworking plants of North Carolina, the semi tropical fruits of Florida, Louisiana and Texas, the peaches of Georgia, the apples of Virginia, North Carolina, Missouri and Arkansas and the truck farms stretching from the Virginia capes to the Rio Grande, and then they could not fail to be impressed with the marvelous interworking in the south of manufacturing and agricultural activities, and with the importance of cotton manufacturing as a motive power.

Nor could they fail to appreciate the wisdom of a Mississippi cotton manufacturer who, writing to the Manufacturers' Record urging the necessity for regular lines of ships between the United States and South American ports, says:

"It was only a few weeks ago when we were talking with a New York agent who said that the United States was greatly hampered and almost forced out of the South American markets because we have no such means of transportation. It strikes us that the sooner we force recognition for our goods among other people, the better it will be for us. As long as we are content with what we have at home, the longer it will take to

have export possibilities realized by all branches of the cotton line."

Negro Given Seven Years.

Weatherford, Tex., Oct. 27.—In the case of Frank Reese, colored, tried in the district court here on an indictment charging him with the murder of his brother-in-law, Sid Simmons, the jury returned a verdict finding the defendant guilty of murder in the second degree and assessed his punishment at seven years in the penitentiary.

FAVOR ARBITRATION.

The Hague Agreement May Be Resorted to in the Chinese Muddle.

Washington, Oct. 27.—A step in the direction of the arbitration of the Chinese difficulties has been taken by Secretary Hay. He has cabled to Minister Conger the suggestion made by Russia that in case of a protracted divergence of views, the questions of indemnity be referred to The Hague court for decision, and instructed him to consult with his colleagues as to the demands their governments will make upon China in this respect. Should he report that it is not possible to reach an agreement, then Secretary Hay intends to advocate vigorously the adoption of the Russian suggestion as the easiest method of obtaining a satisfactory solution.

Secretary Hay and other officials of the administration believe in general arbitration, but they think it is in the interest of China and all the powers that direct negotiations should first be tried. Those who advocate arbitration, however, argue that swifter action could be secured by the reference of the entire dispute to arbitration at this time, than by beginning negotiations in Peking which may be indefinitely prolonged and finally produce no result.

The authorities are anxious to obtain information relative to the position of Germany and England on the Russian suggestion. No information on this subject has yet reached the state department. Should all the nations consent the authorities say a great obstacle in the way of a satisfactory solution of the whole Chinese question will be removed.

A BIGGER NAVY.

It Is Proposed That Forty Warships Be Recommended by Congress.

New York, Oct. 27.—A vaster program for the increase in the navy than ever before contemplated on this side of the Atlantic is now under consideration by the board of construction, says a Washington dispatch to The Tribune, and if approved by the president as is expected, will be urged upon congress at the coming session. The project involves the construction of not less than 40 warships, including various special types not hitherto built for naval purposes. The board of rear admirals, which has taken up the subject under special direction from Secretary Long, is availing itself of the highest expert opinions in the service in order that the report will not be open to unfavorable criticism among naval officers, it being the expressed intention of the navy department to discourage opposition to the line of policy when once adopted.

To Prevent Sickness.

Washington, Oct. 27.—The war department has made public an order published by General MacArthur, looking to the protection of the health of the soldiers in the Philippines. This recites that 50 per cent of the sickness of the army is avoidable by sanitary precautions, most important of which are the boiling of all drinking water, for not less than 20 minutes and the adoption of the strictest cleanliness as to camps, quarters, kitchens and cooking utensils. Proper regulations are prescribed to ensure the adoption of these precautions.

Miners Object to Searching.

Victor, Colo., Oct. 27.—All miners employed at Independence, about 300, have quit work. The cause of action is the personal search of the plans that began at the mine Thursday by detectives who are kept in the company's service to watch the miners and discover ore which they may have secreted on their persons while at work on the ground.

Jumped Into a Well.

Winsboro, Tex., Oct. 27.—Justice McAfee has returned from southeast of Winsboro, where he had gone to hold an inquest over the body of Mrs. Ella Holanquesh. He found that she came to her death by jumping into a well full of water. She had just a few days ago been pronounced insane and was awaiting orders for removal to the asylum.

Poison in Rice's Stomach.

New York, Oct. 27.—Prof. Witthaus in the chemical analysis of the stomach of the late William Marsh Rice reports that he found mercury and arsenic in the stomach.

The bail of Albert T. Patrick and O. F. Jones, charged with forging a check, has been placed at \$10,000 each.

Killing in Virginia.

Richmond, Oct. 27.—In a personal difficulty at Cuckoo, Captain W. B. Pendleton, a one-legged Confederate soldier and ex-member of the Virginia house of delegates, shot and killed William Francisco. The difficulty grew out of a difference regarding adjoining lands.

HARDER & CHATHAM.

Negro and a Chinaman Shot.

Corsicana, Tex., Oct. 26.—There was a shooting affray in a Chinese restaurant on Beaton street. Jim Jessup, a negro, and Sam Lee, a Chinaman, were shot, but neither is seriously hurt. A negro named Hawkins, a waiter in a hotel, surrendered to the sheriff.

Negroes Leaving Grimes County.

Anderson, Tex., Oct. 27.—More than 2000 negroes have left this country and are still leaving at the rate of 25 to 100 a day. The majority of them are going to remain permanently. Austin, northern Texas and the Indian Territory are the places to which they are going.

Fell Twenty-Five Feet.

Corsicana, Tex., Oct. 27.—While working among the crossbeams near the top of the seedhouse at the Navarre Cotton Oil mill, David Ligon lost his balance and fell to the floor, 25 feet. He struck against timbers and sustained a fracture of his legs and was badly cut about the head.

CLOTHING

There is a NAMELESS SOMETHING about the Style, Cut and Finish of our Clothing that appeals to careful dressers.

The well dressed man likes to have his clothing look different from the ordinary. This is exactly the kind of man we are catering for.

You never find careless workmanship about our clothing.

Correct Styles here cost no more than past ideas elsewhere.

We have an unmatched line to select from and ask you to call and see them.

WEBB BROS.

THE DAILY EAGLE.

BY CONNELLY & CARNES.

SUBSCRIPTION PRICE:
Per Week, 10c. - Per Month, 40c.

SUNDAY, OCT. 28 1900

The Eagle again desires to call attention to the need of rent houses. Almost every day there are calls for them.

Democrats should look well to the interests of all the district officers and make their vote as large as possible. Give them a hearty endorsement at the polls.

All good democrats will probably be expected to pray for rain on election day. The chief of the weather bureau says rain in New York, Indiana, Illinois and Ohio will be favorable to the democrats.

WITCH HAZEL

This indispensable household article is not always obtainable of extra good quality.

A poor extract of Witch Hazel like a poor drug is worthless.

We have an extra good quality of Witch Hazel—25c a pint.

FRESH HOPS, SAGE AND SPICES.

Emmel's Prescription Pharmacy.

We understand that the Texas Agricultural Experiment Station, in connection with the department of agriculture, will immediately establish three additional sub-stations for determining the value of grasses and forage plants. These stations, we believe, are to be located, one in East Texas, one in West Texas and one in the central portion of the state. The stations will be operated by the present state station force.—Farm and Ranch.

A special from Dallas states that despite the prevailing high price of cotton North Texas farmers are preparing to put an unusually large acreage in wheat and other grain for next year. The season seems to be very favorable for the preparations and the biggest grain crop Texas has ever produced is expected next season. This will not only be diversification in the right direction, but, if the example is generally followed throughout the state, the cotton crop will be held within reasonable bounds and the high price maintained, in all likelihood.—Houston Post.

"Zaza."

An advance notice says: Chas. Frohman's company will present David Belasco's greatest dramatic success, "Zaza," at the Grand opera house Tuesday night, Oct. 30. When New York has placed the stamp of approval upon a play it does not always mean that it will be successful elsewhere, the exception which proves the rule, however, is without a doubt "Zaza," and the hearty welcome that has been accorded this wonderful play shows that its success is a solid one. Throughout the entire five acts this wonderful play thrills and entrances the audience; throughout its scenes of mirth and thrilling emotion there runs a story of self-sacrifice and honor, when honor could scarcely be looked for. Mr. Frohman has carefully selected the company, together with special scenery and appointments. Its remarkable run in New York for 250 nights and everyone with audiences that taxed the theatres is a feat that would be hard to duplicate. Since it has been out of that city, it has done a tremendous business, everywhere the same story is told, "every seat sold," before the company arrives.

CUBAN GOVERNMENT.

No Hope of American Soldiers Being Withdrawn for Some Time Yet.

Washington, Oct. 27.—The evacuation of Cuba by the United States will not take place quite so soon as has been anticipated in some quarters. The withdrawal of the American troops will not take place in any event until some form of domestic government has been established and is not likely to be ordered by the executive department of the government without the authority of congress. The constitutional convention which meets in November, is likely to be in session several months; probably much longer than after the adjournment of the coming session of congress on March 4, 1901.

The new congress, to be elected Nov. 6 next, will not meet in regular session until December, 1901, and will hardly do any important business until the spring of 1902. By that time representatives of the new Cuban republic may be ready to demonstrate to the appropriate committees of congress that they have government completely organized and capable of maintaining treaty obligations with other powers. Such a government can hardly exercise its functions until authorized by congress.

Whether it shall be permitted to exercise them without the supervision of the United States will be for congress to determine. The president is not likely to assume the responsibility of putting the Cuban government in operation even under the tutelage of the United States without the direct authority of congress. It would appear, therefore, that the new Cuban republic could not begin to exercise its functions until the summer of 1902.

The mere machinery of putting the government in operation therefore will require considerable time. The United States assumed several serious responsibilities in Cuba by the treaty with Spain, but these were more or less waived by the sixteenth article which declared, it is understood that any obligations assumed in this treaty by the United States with respect to Cuba are limited to the time of its occupancy thereof, but it will upon the termination of such occupancy, advise any government established in the island, to assume the obligation. The bearing of this pledge lies in the interpretation of it.

Among the assurances given by Spain subject to this limitation was that 'the rights of property secured by copyrights and patents acquired by Spaniards in the island of Cuba and in Puerto Rico, the Philippines and other ceded territories, at the time of the ratifications of this treaty, shall continue to be respected.'

There is also the provision that the United States will assume and discharge the obligations that may under international law result from the fact of its occupation for the protection of life and property.

President McKinley will undoubtedly prefer to leave to congress the decision how far the advice of the United States, under their pledges to Spain, shall be made valid, and congress may not care to decide the question by snap judgment before the character of the new Cuban government has been tested by time.

TO ASSASSINATE LOUBET.

Plot Claims to Have Been Discovered at Lyons and the Man Arrested.

Lyons, Oct. 27.—Nouveliste de Lyon says a plot to assassinate President Loubet has been discovered. It appears that a working electrician named Couturier burglariously entered the electric company's premises at Nimes, stealing 2500 francs. He was tracked to Orange near Lyons, where he was arrested. The documents found on his person revealed, the paper says, an anarchist conspiracy to assassinate President Loubet on his coming visit to Lyons to unveil the monument erected to the memory of President Carnot. Couturier is said to have committed burglary in order to secure funds to carry out his project. He has, it is added, confessed to the police, who are now endeavoring to track accomplices and watching anarchists in order to prevent any attempt to carry out the scheme.

BRITISH LOSSES.

Fatalities With DeWet's Forces Greater Than First Reported.

London, Oct. 27.—A dispatch received from General Roberts referring to the fighting of Barton's column with DeWet's forces on Oct. 25, says the British losses were heavier than first reported. An additional officer and 12 men were killed and 3 officers and 25 men wounded. The Boers left 24 dead and 19 wounded on the field and 26 Boers were made prisoners. Three Boers who held up their hands in token of surrender and then fired on the British were court-martialed, convicted and sentenced to death, and the sentence confirmed.

The dispatch also refers to minor affairs in which the troops of Kitchener and Methuen were engaged and serious incident between Springfontein and Philippolis, Orange River Colony, where 50 cavalry men were ambushed and captured by the Boers, only seven of the party escaping.

Short on Matches.

Chicago, Oct. 27.—Complaint that the match factories were putting less than advertised in boxes has caused City Sealer James A. Rahn to begin an investigation. A dozen boxes of matches counted by Mr. Quinn were found to contain only 2000 matches instead of 2400 as advertised. Corporation Counsel Walker says that he will prosecute every company found selling less than the advertised number.

Frederick Warde.

A fine audience at the Tulane theatre was treated to the first appearance this season of Frederick Warde, and the first performance here of the "Duke's Jester," a comedy-drama, with a tragic ending, in four acts, written by Espy Williams of New Orleans. The scene of the play is at Milan, and in an era of romance and frivolity, when the whims of men in power was law, Cecco is a man deprived of his titles by treachery, and spoken of as the jester, deprived of his station, but not of his manhood; degraded in position, but not in character; a man of noble birth, the instinct of a gentleman, a nature of refinement, a soul of integrity, incensed in the habit of a buffoon, a gibe, a scoff in a scornful world that takes him at his seeming. Suffering in the pangs of a hopeless love, agonized by the degradation of his position, he laughs, he jests, he makes himself a fool to make men merry. He pleases the duke and becomes a power at court, and becomes a hero by protecting Nina, the woman he loves, from the outrage of marrying a man she does not love. The part of Cecco about runs the gamut of human passions, and it can be understood that it gives Mr. Warde excellent opportunity for acting. There is no low comedy in the play, no drunkenness, no shooting. It moves gradually along in flowing language, all acts and lines leading along the way of telling the story of the jester's fortunes. Mr. Warde is so sincere and earnest in this work that the audience is satisfied to see him for a time unbend in dignity enough to assume woman's garb to save a woman's honor. The play is handsomely costumed and well acted. Mr. Spencer plays the eccentric duke with much ability. The veteran Ford Hight makes much of the fiery old noble, and Mr. H. C. Barton plays well the hateful part of Malatesta. Mrs. Spencer, the leading lady, is a charming little actress, and gives Nina with a combined force and delicacy, that is delightful, and handsome Mary Warde, who has a little love story of her own to work out in the play, easily carried second honors among the ladies. "The Duke's Jester," will be found entertaining and should draw good houses. New Orleans Picayune.

Will be presented at the Grand opera house Monday evening, Oct. 29.

Mrs. Manning.

Mrs. Manning died at her home in the Macy community Thursday. She was one of the old residents of the county and leaves a large family connection. Messrs. Collier, Ching and Bill Manning are her sons. Mrs. Manning was about 70 years of age and belonged to one of the leading and most highly esteemed families of the county. She was many years a Christian and her life was marked by good deeds.

WILL NOT ACCEPT.

Anglo-German Alliance Must Be Changed to Please All the Powers.

Washington, Oct. 27.—In diplomatic quarters there is felt to be some significance in the fact that France, Russia and Japan, as well as the United States, have not accepted the invitation to accept the principles of the Anglo-German alliance. It is understood that this non-action of the powers is not due to any concerted movement among them, although each appears to be halting on the third clause.

A diplomatic official remarked that on mature consideration of this third clause it was seen to involve two constructions: First, that if any power took territory in China as a result of the present trouble, Germany and Great Britain would seek to prevent this action, or otherwise jointly act against the country seeking to extend its domains.

Either construction, it was pointed out, was such that the powers not a party to the agreement could not be expected to bind themselves to its acceptance. Under these circumstances it was said that the powers would probably see to learn Russia's views on the third clause, as Russia's approval undoubtedly would remove the idea that there is any possible menace intended. But it is recognized among diplomatic officials that it would be extremely difficult to secure an expression from Russia on this point as an unfavorable rejoinder which she might be expected to give, would amount to a declaration that she had some territorial designs on Manchuria, and a refusal to answer would be similarly open to such construction.

May Use the Hague Court.

Washington, Oct. 27.—The United States will urge the conference of matters in dispute to an international court of arbitration at The Hague if negotiations at Pekin fail to produce satisfactory results within a reasonable time.

Hays Huntington's Successor.

New York, Oct. 27.—C. W. Tweed of the Southern Pacific road confirmed the report that Charles M. Hays has been selected for the presidency of the company. He said that Mr. Hays would assume the new office about Jan. 1, and that he would have his headquarters in San Francisco. Mr. Tweed added that the officers of the Southern Pacific would probably retain their present positions. Mr. Tweed said the position had not been offered to anyone but Mr. Hays and although Mr. Hays had been the unanimous choice of the board of directors, formal action on the selection will not be taken until the meeting of the board next week.

THIS IS TO REMIND YOU

That all groceries are not alike. Some are made from cheap materials by poor machinery, and very little care is given to the work. That's the dangerous kind because it's likely adulterated. That's the kind you would do well to let alone. Others are made from the choicest materials, much care is given to the work, skilled labor is employed, and much money is spent in making them right—that's the kind that gives health, brain and brawn; you will find that kind in the list below:

Graham Flour 5 lb package 25c;
Cracked Wheat 5 lb package 25c;
Grains of Gold 5 lb package 25c;
Farina 1 lb package 10c, 3 for 25c;
Quaker Oats 2 lb package 15, 2 for 25c;
Scotch Oats 2 lb package 10c, 3 for 25c;
Hominy 2 lb packages 10c, 3 for 25c;
Ralston's Breakfast Food 30c package;
Ralston's Barley Food 15c package;
Ralston's Pan Cake 15c package;
Ralston's Purina Health Flour 25c;
Imported Italian Paste; Macaroni; Vermicelli; Spaghetti; Anderson's Jams per bottle 25c;
Maple Syrup; Grape Nuts and Postum Cereal; Cane Juice, New Crop Louisiana Molasses; New Evaporated Apples, Nectarines, Pears, Peaches; New Prunes; Fresh Dozier Cakes and Crackers; Grits and Hominy; Lye Hominy in 3 lb cans 15c. These are only some of the good things we have to offer. Come and see for yourselves as to the variety and quality of our stock of groceries.

ROOSEVELT'S OVATION

Great Crowds Greet the Candidate for Vice President.

THE GARDEN FILLED

Roosevelt Was Enthusiastically Welcomed and Received Applause All the Way Through His Speech at New York.

New York, Oct. 27.—This city overflowed with Republican enthusiasm in connection with the reception arranged for Governor Roosevelt. From his arrival at the Grand Central station at 5:30 o'clock, until nearly midnight when the governor went to his sister's home for the night, there was such a series of receptions, such a burning of fireworks, such electric displays and such volumes of eloquence, as are seldom seen in New York. It was the climax of the candidate's tour of many thousands of miles, and his friends and admirers made the street ring with their shouts of welcome home.

As early as 5 o'clock, the crowds began to gather at the Grand Central station to see "Teddy" come home. They saw him come and gave him a welcome that is seldom ever given anyone.

The governor was cheered along the line and at the Fifth avenue hotel, the scenes about the station were largely repeated.

The doors of the Madison Square garden were opened to the public at 5 o'clock. Outside the garden, waiting for the opening of the doors was an orderly crowd. There was no rushing or confusion. Inside were two regimental bands, one at each end of the garden. They continually played, alternating during the three hours wait. Popular airs were played mostly and were loudly cheered. Frequently campaign songs were sung by three quartettes.

The decorations were profuse, the stars and stripes predominating. In every seat was a small American flag to which was fastened a button of Gov. Roosevelt in his rough rider uniform. Most of the seats were occupied by 7 p.m. The many groups of paraders began to reach the square soon after 6 o'clock and as each contingent arrived there was more cheering and more burning of Greek fire and rockets. Then came the fireworks.

The Democratic microscope on the Bartholdi hotel roof was at work at the time throwing mottoes on the Dewey arch, on the clouds and walls of the buildings around the square, but the Republicans ignored it.

Governor Roosevelt left the hotel at 7:50 o'clock and stood in his carriage nearly all the way to the garden, and bowed to the crowd. The governor reached Madison square garden at 7:58 o'clock. The audience stood waving flags and cheering when the governor appeared. When the governor reached his place on the front of the stand the applause was deafening. General Green introduced the governor and the ovation was repeated.

His speech was interrupted time and time again with applause. He plunged into the issues of the campaign, starting out with free silver and followed the lines of his many addresses on this subject. He then touched on the present prosperity of the country and how Mr. Bryan's prophecies regarding the gold standard had turned out to be wrong and condemning him for raising a feeling of envy in the minds of the working classes against the capitalists.

He then took up imperialism and finished his speech with a review of the Spanish-American war.

He was followed by Charles S. Fairchild, but the crowd had heard all they wanted and began leaving.

BRYAN'S TOUR.

His Visit to New Jersey Drew Crowds at Several Places.

New York, Oct. 27.—William J. Bryan yesterday concluded his campaign tour of the state of New Jersey. The day was a successful one in that the crowds which he addressed were both attentive and of fair size, but the majority of them were neither so large, nor so demonstrative as those of New York. The tour was made over the Delaware and Lackawanna railroad and the towns at which speeches were made were Hoboken, Harrison, Orange, Summit, Morristown, Boonton, Paterson, Belleville, Newark (three), and Dover.

In reality Mr. Bryan's day's work extended into today for he did not retire until about 2 o'clock this morning and one of the pleasant occasions was the last of the series. When he reached his hotel in Hoboken, after his carriage tour of the city, he found about 6000 German citizens awaiting his arrival. They tendered him a serenade and sang several of the songs of the Fatherland.

The scene when Mr. Bryan entered the Kruger auditorium at Newark was a thrilling one. The big building was crowded to its utmost capacity and when the candidate entered, all those present began a tumultuous shout. All carried small flags and waved them vigorously. They did not cease this demonstration until Mr. Bryan raised his hand as a token that he desired to proceed.

When he finished on the inside of the building, he found the crowd outside 10

times as big as had listened to him within the building. He was compelled to make a speech there and after that he proceeded to the baseball park where he made the last address of the day, closing shortly before midnight.

All arrangements are perfected for the reception to be tendered to W. J. Bryan by the National Association of Democratic clubs tonight. All the Democratic clubs in the city as well as a number from Connecticut, will take part in the demonstration. Meetings in the evening will be held at Cooper Union, the Broadway Athletic club and Madison Square garden.

A SMALL RIOT.

Republican "Prosperity" Wagon Causes Trouble up in Chicago.

Chicago, Oct. 27.—Republican arguments were answered with bricks, paving blocks, tin cans, mallets, vegetables, chunks of bread and eggs yesterday at Superior and Townsend streets. A "prosperity wagon" sent out for a "heart to heart" talk with the furniture factory employees was the center of a riot in which 500 men participated.

Two of the speakers on the wagon were painfully injured, a colored quartette sent out was put to flight and the wagon was given rough treatment.

The injured are:

O. H. McConoughy, hit on head with wooden mallet.

W. R. Frost, elbow dislocated and back sprained.

About 1000 men attended the meeting. Trouble began a few minutes after the chairman introduced the first speaker. Somebody threw a brick. A moment later somebody else threw a paving block and then it seemed that everybody in the crowd was throwing something. The melee lasted for fully ten minutes when a patrol wagon filled with policemen arrived and scattered the belligerents.

Roosevelt Off Again.

New York, Oct. 27.—Governor Roosevelt got up early this morning at the residence of Mrs. Douglass Robinson, his sister. Having breakfasted the Governor and Mrs. Roosevelt entered a carriage at 8:30 and escorted by a platoon of 20 mounted policemen drove to the Erie Railroad ferry. In Jersey City the governor entered a special car and traveled toward Binghamton, at which city he arrived at 6:40 p. m. Way stops were made and short speeches were delivered at Suffern, Hillburn, Middletown, Port Jervis, Shola, Lackawanna, Coejection, Calicoon, Long Eddy Deposit, Susquehanna and Great Bend. At Erie Ferry in New York and Delaware Station in Jersey City, Roosevelt was cheered by good sized crowds, which had assembled to see him.

Great Republican Parade.

Chicago, Oct. 27.—Business generally was suspended in Chicago today and the city gave itself up to a "prosperity" parade. The prediction of pleasant weather was amply fulfilled, the day being an ideal autumnal day. Every industry of the city was represented in floats that interspersed the procession and each marcher wore a badge containing the words: "McKinley was all right." Among those occupying reviewing stands were United States Senator Hanna, chairman of the Republican national committee; Vice Chairman Henry C. Payne, National Committeemen Stewart, New and Kerens and United States Senators Cullom and Mason of Illinois. The parade started at 10 o'clock. All along the route the business houses and office buildings were profusely decorated with the national colors and streamers bearing the legends: "McKinley was right," "Sound money and prosperity," and kindred inscriptions, together with representations of "the full dinner pail."

Declines the Nomination.

Blum, Tex., Oct. 27.—H. C. Christman, who was nominated by the Populists for representative from the Seventy-seventh floritorial district, has written a letter to Chairman Riley declining the nomination. Mr. Christman says his business affairs will not permit him making the canvass.

Sherman's Will.

Mansfield, O., Oct. 27.—The will left by the late John Sherman has been presented for probate. The estate is valued at \$3,000,000. It is left exclusively to relatives. His adopted daughter, Mrs. McCullum, gets the largest share. His sister, his brothers and their children are all remembered. He provides for his biograph and appropriates \$10,000 for that purpose.

Child Burned to Death.

Strawn, Tex., Oct. 27.—A 9-year-old daughter of Mr. Roe, a miner in the employ of the Strawn Coal company, was burned to death at the mines. She was kindling a fire with kerosene oil when her clothing became ignited and before assistance could reach her she was so terribly burned that she died.

Empress Dowager Ill.

Tien Tsin, Oct. 26.—Information has been received from Japanese sources that the empress dowager is seriously ill at Tai Chuen Fu and that the most prominent physicians in the empire have been called to attend her.

English Horse Won.

London, Oct. 27.—Match race between the English horse Eager, ridden by Mornington Cannon, and the American horse Royal Flush, with L. Reiff up, which was run over the Hurst Turf Club course, was won by Eager.

Boers Capture a Town.

Cape Town, Oct. 27.—The Boers have captured Jacobsdal, southwest of Kimberley, after a stubborn resistance upon the part of the garrison, which consisted of a detachment of Cape Town highlanders. The latter suffered severely, losing 34 out of 52 men.

If They Just Knew!
